

Healthcare trolleys

The healthcare trolley collection is designed for transporting and storing ISO-compliant instrument and supply baskets.

Instrument trolley can be equipped with baskets or with shelves mounted on telescopic slides. The glass doors open 270 degrees and can be locked into open position for example when an automatic trolley washing machine is used. The instrument trolley has vertical, ergonomic push handles, so that each user can operate the trolley at a height suitable for them.

The 1-level instrument trolley with a push handle is suitable for transporting heavier individual instruments.

All trolleys use Manner 125mm diameter Tango-wheels and the push handle can also be placed vertically on basket model trolleys.

Trolleys are also available with special measurements and accessories.

<p>Instrument trolley with slides and glass doors</p> <ul style="list-style-type: none"> • measurements: 785x550x1490 mm • weight 61kg • telescopic slide S400 mm • capacity 100kg • SST plate shelf • baskets, clear, PC, 600x400 mm with different heights, dividers
